WHAT WE DO

Since 2017, Heritage Portraits & Albums has been making waves as one of the first companies to take portraits and make Public Safety Legacy Albums. Our program is free to the organization and our profits are made from selling the portraits we take to that individual, along with the Heritage Album.

Once our team leaves the department, the department gathers historical information, submits it to us, and we design and produce the Heritage Album with that information and the portraits we take.

HERITAGE PRODUCTS

The Heritage Album covers various areas of departments and their history. They can include information like, special teams and divisions, command staff biographies, and community events hosted by or for the departments.

We also create other customized products and produce portrait prints.
